

## PRESS INFORMATION

### Allegro Packets appoints new reseller in Israel

**Leipzig/Tel Aviv, 10. September 2018 – Allegro Packets, the market leading network test manufacturer today announced an exciting new partnership with RDT Equipment & Systems, a renowned leading Israeli supplier of solutions and services for a wide range of organizations.**

The agreement includes the distribution of Allegro Packets highly innovative Network Multimeter; this deal is set to increase Allegro Packets market leadership in the international market.

Allegro Packets state of the art network diagnostic troubleshooting tools includes the Allegro 200, Allegro 1000 Series, and Allegro 3000 Series which will be distributed by RDT Equipment & Systems. The Allegro Packets tools are used by network administrators around the world to analyze network traffic both in real-time and store previous events to provide detailed post-event investigation. Network problems and packet losses can be detected with just a few clicks, as can performance bottlenecks. The Allegro Network Multimeter use powerful software algorithms to analyze load peaks and disturbances with high granularity, concurrently functioning as powerful network monitoring tools to ensure high network quality.

Commenting on the agreement, Klaus Degner, Managing Director & Founder of Allegro Packets, said "We are delighted to be partnering with RDT Equipment & Systems for the distribution of our product lines in Israel. We are actively increasing our presence in the testing and troubleshooting field with the planned launch of further Allegro Network Multimeter during 2018. The partnership with RDT Equipment & Systems is a key element of our channel strategy ensuring that we have agreements with well-respected highly professional specialist resellers."

"RDT Equipment & Systems is very pleased to extend our relationship with Allegro Packets through this reseller agreement," stated Victor Dembovsky, VP Marketing & Business Development of RDT systems. "Allegro Packets is a highly versatile, progressive and innovative vendor

with a big future and we're proud to be able to use our proven expertise and experience in the Israel channel to help bring these virtues into focus."
